

OPEN BIBLE BAPTIST CHURCH

December 7, 2010

Dear Friends,

I just returned from a missions conference where I was the key note speaker, but it was I who was spoken to. Each morning the pastor had one of his laymen speak. He was a CPA who owned his own business and taught on finances. For five mornings he spoke on WISE INVESTMENTS. He started out speaking to pastors and made some comments that got my attention. He said if businessmen ran their businesses the way most pastors run their churches, they would go broke. The businessman uses WISE INVETMENTS, he invests in only those that will bring a profit. Yet the church feels sorry for a missionary that has or does little and invests in him. While the missionary that sees folks saved and builds something for God will go un-invested in because he has too much. He used Philippians 4:17 "Fruit that may abound to your account". To teach on WISE INVESTMENTS. He then spoke to the missionaries and oh what conviction. You guys, he said, don't want to do big things for God because your are afraid you will lose your support for having and doing too much. If you do a great job for God you don't want to report it and bring honor and glory to God because you have been taught to do so will cost you support. So from now on I am going to speak up about God's blessings and what He is doing, even if it costs me support. I don't want to be one of those missionaries who says feel sorry for me and give. I do want to be one that says this ministry is a WISE INVESTMENT. It is "fruit that may abound to your account". So I am sending some pictures to show you what God is doing here with the Navajo people. The church is growing, visitors every week, souls saved every week. The bus ministry is growing (they are poor, but they will come if you go get them). The school is doing great, students graduating and going off to college. Come for a visit and see your WISE INVESTMENT!
